

BRONZE & BRASS

ABOUT

The human civilization is fraught with specimens of art and craft, right from its very inception. Be it in the Sumerian, Mesopotamian, European, Roman or in the New World, artisans have always instilled life into their creations. To carry forward the legacy of traditional artwork, which would otherwise be lost in the crowd of new innovations, artisans have passed on their skills over the ages. Being alloys of the highest grade that last for generations displaying aristocracy and supremacy, bronze and brass are the finest metal alloys. Ever since their discovery, they have been used to carve out a number of items such as ornamental curios, weapons, vessels, lamps, sculptures of deities, clocks, vases and more. Bronze and brass creations have mesmerized the human mind and decorated homes and palaces for ages. At Bronze and Brass, we strive to bring out the best luxurious creations meeting our clients' precise specifications. Just share your imagination with us, and the final product will reflect not just your emotions, but also incomparable quality and superiority of appearance.

From the designer's desk

After spending a decade in the designing and creative field, I set my eyes on starting "Bronze & Brass", where creativity would be unleashed in the most outlandish manner.

Close to your heart, it will become the most precious item in your life, irrespective of its scale. Such soulful and heartfelt will the design be!

Our team of talented artisans and designers will conduct repeated trials before forging just the thing you want.

Equipped with the supremacy and elegance of bronze and brass, we try to touch your lives by offering you the power of uncompromised quality.

Arun Thekkachara

WHY BRONZE AND BRASS

EXCEL IN DESIGN

Our Team of experienced craftsmen develop each design with utmost clarity so that our customers derive the highest satisfaction. Unique designs are what make us stand apart from our competitors. Our designs make us stand out, look different, and show that difference boldly.

UNCOMPROMISED QUALITY

Bronze and brass aim at providing the best quality materials to our customers and we would never compromise quality to anything.

The higher quality of materials we use and provide would put the designs into absolute perfection. We mainly use premium woods, genuine leather, precious and natural stones, offering you the purchase of a lifetime and beyond.

CUSTOMER EMPHASIS & INVOLVEMENT

We ensure the active participation of our customers at every stage of product. We respect and value the suggestions of our customers hence 2D/3D drawing & detailing and hand sketch are presented for approval during an interactive session from the pre-production stage onwards.

CUSTOM MADE

Customization is our key. The products are customized so that our customers shall build an emotional connection with item.

As we involve customers in each step of the production process, the end product shall be close to your heart.
